SureColor SC-P800

Superior-quality A2 photo printer with flexible connectivity and roll paper option for creating professional prints on a range of media

The SureColor SC-P800 is Epson's top-of-the-range A2 desktop ProPhoto printer. This superior-quality printer uses UltraChrome HD ink and is ideal for professional photographers and artists wishing to produce true-to-life photos on a range of media. Users can also easily print from a number of devices, including tablets, PCs and smartphones, thanks to Wi-Fi connectivity.

Superior quality prints
Using UltraChrome HD ink, our new nine-colour ink-set, the SC-P800 produces true-to-life photos with vivid colours and the deepest blacks on the market[1]. Your prints will last for ages thanks to the inks' improved lightfastness[2], and large 80ml ink cartridges mean fewer trips to change the ink.

Print on a range of media
The SC-P800 is the smallest A2 printer with roll paper option[1], which enables users to print panoramic photos on formats such as banners and gallery wrap canvas. Three paper paths, including a front-loading fine art paper path, means users can easily switch between different formats.

Stay connected
With the SC-P800, it is easier than ever before to print from a whole range of devices. This model is the first 17-inch photo printer with wireless functionality[1] and Epson Connect compatibility for great flexibility and freedom, meaning easy printing from tablets, PCs and smartphones. Wi-Fi Direct is also supported, meaning the printer can easily communicate with your smart devices.

Easy-to-use
The SC-P800 features quick, simple set-up and operation thanks to a large 2.7-inch colour touch panel. It guides the user through how to load different media types and enables them to easily switch between these before printing.

High-quality look and feel
A new sleek, modern design means the printer has the smallest footprint of any A2 printer on the market[1] and it fits well where space is an issue, at home or in the studio.

KEY FEATURES

- **Nine-colour UltraChrome HD inks**
  Exceptional quality colour images with deep blacks and rich tones
- **Roll paper option**
  Print panoramic photos on formats such as banners and gallery wrap canvas
- **Wi-Fi Direct and Epson Connect**
  Easy to connect wirelessly and over the Cloud
- **Large colour 2.7 inch touch screen**
  Easily set up and monitoring without the need for a PC
- **Large 80ml ink cartridges**
  Ideal for large print runs of professional-quality photo prints

1. - Compared against competitors' A2 photo printers with a 6-colour or greater ink-set available as of January 2015
2. - Compared to Epson UltraChrome K3 ink. Lightfastness of UltraChrome HD ink determined as approximately 60 years when tested in conditions based on JEITA CP-3901A standard (A4 glossy paper, temperature 23°c and humidity 50%).
