DURABIN® rPP trolley

This handy trolley is the perfect solution for effortless waste transportation. It can carry up to 80 kg (DURABIN® 60L rPP trolley) or 100 kg (DURABIN® 90L rPP trolley) and is stable and sturdy thanks to its four castors. With the help of the enclosed connectors, the trolley can be joined to up to 4 other trolleys.

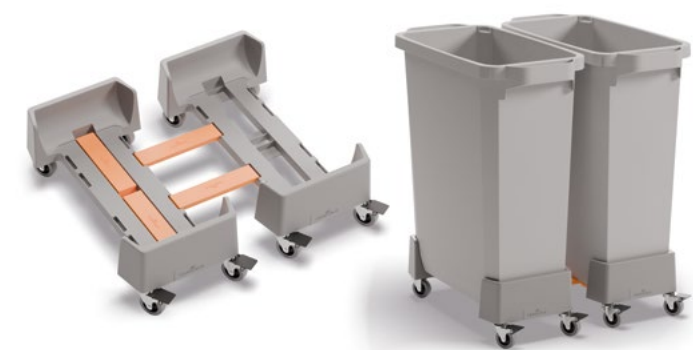

DURABIN® rPP trolley

- Trolley made from at least 80% recycled polypropylene (except castors)
- Suitable for use indoors or in protected outdoor areas
- For use on even surfaces in warehouses, production areas, canteens etc.
- With 4 castors, 2 with brakes
- Can be joined to the DURABIN® 60L rPP trolley and/or the DURABIN® 90L rPP trolley using the enclosed connectors (maximum 4 trolleys in a row)

DURABIN® 60L rPP trolley

- For one rectangular DURABIN® 60 waste bin
- Holds up to 80 kg
- Dimensions incl. castors: 240×165×495 mm (W×H×D)

DURABIN® 90L rPP trolley

- For one square DURABIN® 90L waste bin
- Holds up to 100 kg
- Dimensions incl. castors: 390×165×415 mm (W×H×D)

The trolleys can be connected with each other.
