**Ergonomic vertical mouse that feels comfortable right away for healthy computer use, for everyone.**

With the PRF Pro, ergonomics is within reach. This vertical mouse combines immediate familiarity with a relaxed hand position, allowing you to work more comfortably from day one. Thanks to its well-designed fit, the PRF Pro is suitable for virtually any hand size. This 3-mode vertical mouse is suitable for both left- and right-handed users and is ideal for fixed workstations at home or in the office. The button on the underside allows you to easily switch between different devices without having to reconnect. This means the PRF Pro moves effortlessly with you throughout your working day.

Ergonomic background

Recent studies have linked prolonged and intensive use of a traditional computer mouse to an increased risk of wrist, forearm and shoulder complaints, particularly due to persistent wrist deviations and forearm pronation (Andersen et al., 2019; Oakman & Kinsman, 2021). Vertical mice are designed to place the hand in a more neutral, so-called hand-shaking position, reducing both lateral wrist flexion and internal rotation of the forearm (Lin et al., 2021). This reduces muscle activity in the forearm compared to traditional mice, which can contribute to reducing physical strain during prolonged computer use (Schmid et al., 2015; Lin et al., 2021).
