mCollection

True Omni-Channel POS Printing Solutions

– the future of POS connectivity with Star's new mC-Print.

Continually pioneering solutions that seamlessly combine sophistication with high functionality, Star's **mC-Print2™** and **mC-Print3™** aesthetically match the sleek, modern design of tomorrow's retail, bar and hospitality environments.

The feature-rich, front-feed compact printers offer exceptional functionality with 5 interfaces in the one printer and multiple peripheral hub operation.

Delivering low cost, sophisticated & sustainable solutions.

▶ Star's effective mC-Print3 IPX2 Splash-Proof Design

Ticks all the boxes for today's expectations in kitchens, bars or other harsh environments meeting IPX2 strict requirements unlike most, if not all printers in its class.

- Soft operating switches
- High "protected" control boards
- Debris and insect prevention

▶ Sustainability at a cost-effective price

The mC-Print offers easy paper saving with a dramatic 2mm top margin saving the planet's resources as well as reducing your paper costs.

Top Margins: mC-Print2: 11mm, mC-Print3: 2mm

Traditional POS or a new Tablet POS Solution?

The new mC-Print2 or 3 has enough interfaces for both!

▶ **Traditional POS**
USB
Ethernet LAN
Cloud

▶ **Tablet POS**
USB for iOS
Ethernet LAN
Cloud
Bluetooth

mC-Print3™

mC-Print2™

Made for
 iPad iPhone iPod

Traditional USB & Unique Lightning "Data & Charge" USB Ports

Star's unique iOS Lightning cable port for iPad, iPhone and iPod communication provides device charging as well as direct cable data transfer between Apple iOS devices and the printer – in the same way a traditional USB printer talks to a terminal! This will simplify set-up as well as eliminate the need for pairing and passwords, making life so much easier for employees. Just check your software provider supports direct iOS communication with a Star printer or email support@star-emea.com

Easy Install/Integration

We are always proud to be told that Star provides the best integration tools available and this product will be no exception with standard OPOS, JavaPOS and Windows drivers. Plus the StarPRNT SDK for all Star POS printers has been updated – www.starmicronics.com/support

- ✦ **Simplified provisioning**, using Star supplied native utilities for iOS and Android in addition to web based configuration
- ✦ **Traditional StarPRNT Intelligence driver** for Windows devices will also be available at launch
- ✦ **Easy Bluetooth and Ethernet set-up** including static IP address using Star native mobile utilities
- ✦ **Direct Lightning cable connection** for simultaneous high speed receipt printing, status and charging. All the benefits of a wired printer with the flexibility to undock and sell on the shop floor via Bluetooth or wireless network (check software is integrated)

▶ **NEW UTILITIES AVAILABLE for iOS & Android with APP**

Provides easy access to on-line manuals and diagnostic support tools.
