NUMI

NUMI

- **Digital display** : enjoy a backlit digital display that simultaneously shows the temperature, day of the week and date. The contrast between the black background and the orange lighting ensures optimal readability.
- **Multi-functional** : an all-in-one clock with alarm, stopwatch and countdown timer to meet all your needs.
- **Built-in memory mode** : keeps the time and settings even after unplugging or a power outage, ensuring simple and uninterrupted use.
- **Intelligent brightness** : thanks to automatic detection and 10 adjustable levels, the display adjusts perfectly to the ambient lighting for optimum visual comfort and a good night's sleep.
- **Clever** : easily control the display and adjust the brightness of the NUMI clock using the included remote control.
- **Practical** : powered by mains (driver included) but also via USB-A port (cable provided). NUMI cannot sync through a laptop and can only be set using the remote control.

ABOUT UNILUX

Founded in 1952, UNILUX is a French company specializing in lighting and ergonomics. Over the past 25 years, UNILUX has become a benchmark in the field of lighting in France and throughout Europe. In 2000, UNILUX joined the French group HAMELIN, a European leader in stationery. The company modernizes and evolves to become a creator of ambiance and well-being.

OUR EXPERTISE

A clock is an essential accessory that seamlessly integrates into any workspace: individual desks, open spaces, meeting rooms, reception halls, etc.

By enabling precise time management, a clock contributes to improving productivity by helping individuals meet deadlines and allocate their time effectively to various tasks. A clock fosters organization, productivity, and overall well-being. It is a practical and multifunctional tool in our daily lives.

For optimal visibility from a distance, our clocks feature:

- Good contrast between the dial background and the color of the numbers.
- An optimal height of the numbers (approximately 3 cm minimum), in Arabic characters.

ENVIRONMENT

UNILUX focuses on sustainable development and takes concrete measures to reduce its environmental footprint and best meet the evolving expectations of its consumers.

We are notably committed to reduce our greenhouse gas emissions by 29% between 2021 and 2030 in response to the "Net Zero Carbon Emissions by 2050" challenge. Eco-design, emissions reduction, and continuous improvement are at the core of our concerns.
