POCKETLIGHT

POCKETLIGHT

Brighten up your everyday life with our versatile lamp that transforms into a practical torch in the blink of an eye. Clever lighting for every situation, wherever you are.

POCKETLIGHT

- **Versatile** : POCKETLIGHT offers dual functionality as a mobile torch and desk lamp, making it ideal for use in confined workspaces, whether in the office or at home. Its detachable stand lets you place your smartphone on it.
- **Practical** : as practical as it comes, this lamp is small enough to take with you wherever you go.
- **Stable** : its integrated 1200 mAh lithium-ion battery, with an autonomy of 3 to 4 hours, acts as a counterweight to the lamp, giving it perfect stability whatever its use on the desk.
- **Optimum lighting** : retractable and adjustable, its pivoting head lets you control the height and direction of the light to illuminate your workspace to perfection.
- **Light intensity dimming** : with its three levels of light intensity, this lamp provides constant and flicker-free lighting, protecting your eyes.
- **USB port** : its USB port allows to recharge your smartphone in the blink of an eye. POCKETLIGHT comes with a 0.5 m USB charging cable (no plug included).

Warranty : 2 years
Recharging time : 4,5h
Using time : 2 h with max intensity and 6 h with min intensity
Max height : 25.5 cm
Min height : 15 cm
Materials : ABS plastic

SAP. code	400188495
EAN code	3595560040612
Color	White / grey
Luminous flux (Lm)	104
Lux (Lx)	800 at 20 cm
Energy efficiency (Lm/W)	105
Color temperature (K)	3000
CRI	86
Source lifespan (h)	50 000
Energy consumed (kWh/1000 h)	1
USB port	Yes
Induction charger	No
Net weight (kg)	0.14 (with lithium battery included)

ENVIRONMENT

UNILUX focuses on sustainable development and takes concrete measures to reduce its environmental footprint and best meet the evolving expectations of its consumers.

We are notably committed to reduce our greenhouse gas emissions by 29% between 2021 and 2030 in response to the "Net Zero Carbon Emissions by 2050" challenge. Eco-design, emissions reduction and continuous improvement are at the core of our concerns.

OUR EXPERTISE

Task lighting

In the office, we are often exposed to constant artificial lighting. Poor lighting quality can lead to headaches, sleep disturbances, and decreased concentration. According to a recent study, only 34% of workspaces achieve the recommended illuminance level of 500 lux by Occupational Medicine, in accordance with DIN EN 12464-1* standard. Task lighting is frequently used to provide additional brightness when the primary lighting is insufficient.

* Standard setting the limits that workplace lighting must adhere to.

Our tips to light up your workspace :

- Position your desk near windows to benefit from natural daylight and reduce eye fatigue.
- Ensure that the lamp head is positioned at least 35 cm above the work surface.
- Place the lamp on the opposite side of the hand that holds the mouse or writes.
- Position the lamp for easy adjustment.
- Ensure that your lamp is placed to avoid glare on screens and prevent direct glare in your field of vision.

ABOUT UNILUX

Founded in 1952, UNILUX is a French company specializing in lighting and ergonomics. Over the past 25 years, UNILUX has become a benchmark in the field of lighting in France and throughout Europe. In 2000, UNILUX joined the French group HAMELIN, a European leader in stationery. The company modernizes and evolves to become a creator of ambiance and well-being.
