SNOOD

SNOOD

- **Design:** the spiral coat hooks, combined with the wooden insert, add an elegant, graphic touch, turning this coat rack into a bold, innovative design object to enhance your home.
- **Stable:** thanks to its weighted base, SNOOD is even more stable, so it can withstand heavier loads without tipping over.
- **Sturdy:** each coat hook can support up to 5 kg, making it a sturdy ally for everyday challenges.
- **Ergonomic:** the minimalist, rounded metal hooks provide a smooth, uncluttered surface, ideal for hanging your clothes and accessories without damaging them.
- **Eco-designed:** part of this coat hook is made from FSC-certified wood with a beech finish, in an environmentally-friendly approach.
- **Practical:** quick and easy to assemble (in 5 minutes), no tools required.

ABOUT UNILUX

Founded in 1952, UNILUX is a French company specializing in lighting and ergonomics. Over the past 25 years, UNILUX has become a benchmark in the field of lighting in France and throughout Europe. In 2000, UNILUX joined the French group HAMELIN, a European leader in stationery. The company modernizes and evolves to become a creator of ambiance and well-being.

OUR EXPERTISE

Coat stands offer significant benefits in terms of organization, practicality, and aesthetics, contributing to making your daily life more comfortable and orderly.

When designing our coat racks, we emphasize various criteria :

- **Convenience** : we take care to manufacture products that are easy to assemble and maintain for long-term use.
- **Stability** : our coat stands feature a heavy steel base ensuring perfect stability, particularly important in high-traffic areas.
- **Design** : offering a variety of styles, UNILUX coat stands transform into authentic interior decor elements.

ENVIRONMENT

UNILUX focuses on sustainable development and takes concrete measures to reduce its environmental footprint and best meet the evolving expectations of its consumers.

We are notably committed to reduce our greenhouse gas emissions by 29% between 2021 and 2030 in response to the "Net Zero Carbon Emissions by 2050" challenge. Eco-design, emissions reduction, and continuous improvement are at the core of our concerns.
