

Artline®

Colouring and UV Reflection Marker
for lure marking to enhance fishing

PRODUCT NAME

“IREGUI” means
fish biting at every cast
in Japanese.

THE STORY

Shachihata's R&D Dept., in collaboration with fishing enthusiast staffs, conceived this special marker, aligning with the needs of anglers and successfully bringing it to global market.

Renya Shibata from the Product Development Dept. passionately presented the lure marker project to the company driven by 'wanting to use it myself.'

Kinya Asahino, a 47-year fishing veteran from the R&D Dept. diligently worked through trial and error to transform Shibata's idea into reality.
